

REPAIR TIMES

To use it, you simply select the required vehicle and click on the new 'Repair Times' option.

Logbook Service Repair Times

Then click on a category from the presented list below and EzyParts will display the 'Factory Allowance labour hours' for many of the standard repair jobs. Clicking on the 'Add' button will add these hours to your customer quote. Adding hours for multiple repair jobs will accumulate the LAB hours in your quote.

Section	Repair Details	(FA)	Time Allocation	
Engine	Engine assembly			
Engine management - Ignition	Engine only	Remove and install	4 Hr 00 Min	4.00
Engine management - Fuel	Short exchange engine	Remove and install	12 Hr 06 Min	12.10
Cooling system	Mounting - left (of engine bay)	Remove and install	1 Hr 06 Min	1.10
Exhaust system	Mounting - right (of engine bay)	Remove and install	1 Hr 06 Min	1.10
Clutch & controls	Cylinder head

Automatic transmission	Camshaft/valve cover & gasket - left	Remove and install	1 Hr 18 Min	1.30
Final drive, shaft & axles	Camshaft/valve cover & gasket - right	Remove and install	1 Hr 18 Min	1.30
Suspension	Valve clearances	Check	2 Hr 42 Min	2.70
Steering	Valve clearances	Check and adjust	8 Hr 30 Min	8.50
Brakes	Cylinder head & gasket - left	Remove and install	7 Hr 30 Min	7.50
General electrics	Cylinder head & gasket - right	Remove and install	7 Hr 30 Min	7.50
Air conditioning & heating	Cylinder head - transfer components - left	Strip and rebuild	7 Hr 30 Min	7.50
Body - Front section	Cylinder head - transfer components - right	Strip and rebuild	7 Hr 30 Min	7.50
Body - Centre section	Cylinder head - transfer components (both)	Strip and rebuild	9 Hr 30 Min	9.50
Body - Rear section	Rocker shaft assembly	Remove and install	1 Hr 30 Min	1.50

Using the 'Configurations (F4)' function, you can apply an 'adjustment labour factor' to the 'Factory Allowances'. For example - entering 10 in this field will automatically increase all the standard labour hours shown above by 10% which is recommended for non-dealerships.

The supplied Repair Times are Factory Allowances these are often impractical to achieve in reality. You can set an automatic increase or decrease so that all values are automatically adjusted for you

Labour Factor FA+ 0 % Save

Stock Lists

This feature allows you to create a list of products that you commonly order. You can store this list, modify the quantities when required, and quickly convert the Stock List into an Order.

There are now 3 options when you go into the Shopping Cart

ORDER **QUOTE** **STOCK**

Selecting the **STOCK** function will allow you to save, or update, a Stock List, and give it a name.

ORDER QUOTE STOCK	Quote No:	STOCK ORDER ITEMS
STOCK ORDER	Part Number	Description Qty
Stock Order Name Monday	Z411	OIL FILTER 1
SAVE / UPDATE	Z436	OIL FILTER 1
Purchase Order	WZ79	ENGINE OIL FILTER 1
Delivery Type	A1527	AIR FILTER 1
Add a note to store	WA1184	AIR FILTER 1
	FB565/20	AIR FILTER 1

Selecting the Order/Quote/ **Stock List** (F2)

Burson Home (F1)

Order/Quote/Stock History (F2)

Change Nett Tax (F3)

option will allow you to view the Stock Lists you have added. See example Stock List below. You can click on the "+" sign in front of the stock list to view the products in the list.

Burson Home (F1)	Order/Quote/Stock List (F2)	Change Nett Tax (F3)	Configurations (F4)	Back to EzyParts (F5)
